

Dama Venus - FYC Step-by-Step Guide

Private reference for the submitting member. Not portal artwork.

Step 1 - Verify the accepted entry

Confirm the current awards cycle, the accepted entry in **Best Rap Performance**, and that the public spelling has been corrected to **Dama Venus**. Keep Entry Number 011293 and Web ID 10149486 private.

Step 2 - Select the upload media

Use exactly one prepared image from **01_PORTAL_UPLOAD_IMAGES**. The square JPG is the default first choice. The portrait and landscape versions are alternatives for portal layouts that prefer those ratios.

Use the YouTube link **https://youtu.be/h6OUAxJmKRw** when the feature accepts a recording link. Use the MP3 from the reference folder only if a direct file upload is supported and the member confirms that it matches the accepted recording.

Step 3 - Paste the text

Use **PORTAL_COPY_READY.txt** for the public fields and **DESCRIPTION_ONLY.txt** for the main description. Use the short description only if a real field-length constraint requires it.

For Your GRAMMY® Consideration in Best Rap Performance. “Kitsune Pt 2” by Dama Venus brings first-person lyrics about desire and connection into a nocturnal world of constellations, lanterns and midnight, anchored by the recurring “no drama, no stress” refrain.

Step 4 - Review the preview

Check spelling, title, category, image crop, playback, and the absence of private identifiers. Do not add the Entry Number, Web ID, Academy logo, or any request for votes.

Step 5 - Publish once and return proof

Publish only once in Best Rap Performance. Return a screenshot or the live member-visible listing reference, together with the exact text and chosen artwork filename.

If anything is unresolved

Contact **awards@grammy.com** if a mandatory field, artist-name correction, or portal-specific requirement remains unclear. Do not guess unsupported portal inputs.
